Summary

Dynamic Full-Stack Web Developer with a strong foundation in Statistics and extensive experience in frontend development, complemented by a burgeoning proficiency in backend technologies. Armed with a degree in Statistics. I bring a unique blend of analytical thinking and technical expertise to the table, enabling me to approach both frontend and backend development with a data-driven mindset. My career goal is to continue pushing the boundaries of web development, leveraging both frontend and backend expertise to deliver innovative solutions that drive user engagement and business success.
